

Instruction of Augmentin Syrup

Preparation

1. Tap bottle until all powder flows freely.
2. Add approximately 2/3 of total water for reconstitution (below ) and shake vigorously to wet powder.
3. Add more water until the level of the fill line () is attained and shake again vigorously.
4. Once reconstituted, store in a refrigerator at 2-8°C, but not frozen.
5. Follow the doctor's advice and shake oral suspension before using.

Precaution

1. Follow the doctor's advice and use this medication within 7 days.
2. It is important to take this antibiotic at evenly spaced intervals, to avoid missing doses and to complete a full course of therapy.
