

Instruction of Mycostatin Suspension

Preparation

1. Tap bottle until all powder flows freely.
2. Add 23mL cold water into the bottle and shake vigorously for a few minutes. The final volume of reconstituted suspension is 24 mL.
3. Once reconstituted, store at room temperature in a dry place.
4. Shake oral suspension before using.

Precaution

1. Follow doctor's advice and use within 7 days.
2. It is important to take this antibiotic at evenly spaced intervals, to avoid missing doses and to complete a full course of therapy.
